-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 24, 25, 27, 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Matoba, 5465472.

Regarding claim 24, 25, Matoba discloses a multi-part lanyard connector that is capable of use in a lanyard system comprising a lanyard connector body (10, 20) with a first body portion (10, 15) configured to couple to a lanyard substrate and a second body portion (20, 24, 24a, 21, 26a) configured to be selectively disengaged from the first body portion (10), wherein the proximal portion of the second body portion selectively, non-rotatably couples to the distal portion (16) of the first body portion (10). The lanyard connector body also having a neck defined by the arms and end portion of the second body portion surrounding the opening 25, wherein the neck is configured to be disposed within and coupled to a portion of an attachment, i.e., it is structurally capable of being inserted into an attachment.

Regarding claim 27, Matoba's neck is capable of allowing an attachment to rotate about the neck.

Regarding claim 30, Matoba's neck is capable of engaging an attachment in a snap-fitting relationship.

Allowable Subject Matter

3. Claims 26, 28-29, 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 32-45 have been allowed.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Lavinder whose telephone number is 571-272-7119. The examiner can normally be reached on Mon-Friday, 9-4:00pm.
